

Ageing Report Requirements

Need a Risk and Cost Management Report:

1. Number of days the products have been on the shelf.
2. Categorize or sort the products by their ageing days.
The product has been on the shelf for less than six months, between six and twelve months, or for more than twelve months.
3. The number of products at risk in various storage facilities.
4. Calculate the extent of the company's financial risk.
5. To what extent can we reduce costs for the business?
